PROFESSIONAL EXPERIENCE

Fullstack Developer (Freelance)

WORKSTAFFHOST - *Employment SaaS Platform for the Hospitality Sector* 🔗

08/2025 – Present | Barcelona, remote

Production-ready MVP actively used by a real client in the hospitality sector, featuring a multi-role system (company/worker), 2FA authentication, automated matching, advanced job-offer CRUD, and profile management with image uploads and QR generation. Scalable architecture built with Next.js 14, Node.js/Express, Supabase, PostgreSQL and Prisma, deployed full-stack with a custom domain.

Freelance Developer

MASQUESEGUROS - *Insurance Advisory Platform* 🔗

03/2025 – Present | Barcelona, remote

Real website built for a client with no technical background, designed for personalized insurance consultation.

- Full development from semantic structure to JS interactions (onClick, FAQ).
- Iterative delivery based on direct client feedback.
- Responsive design focused on clarity and conversion.
- Live website deployed on Netlify.

PERSONAL PROJECTS

REVLO - SaaS for Local Businesses

 🔗

05/2025 – Present

Barcelona, remote

Modern SaaS platform that allows users to discover and connect with local businesses in real time.

- Full development: frontend, backend and deployment.
- Features: geolocation, dynamic filters, user reviews, unique QR, image gallery, light/dark mode.
- Authentication with Supabase and PostgreSQL database via Prisma.
- Form validation with Zod and React Hook Form; visualizations with Chart.js and Recharts.
- Accessible and responsive UI using Shadcn/UI and Tailwind CSS.
- Scalable, production-ready architecture using Next.js Server Components + SSR.
